

## **400 Series**

The Dremel 400 Series Digital is the perfect multitool for projects that require the utmost precision. Thanks to the unique digital display, you can work more precisely on several materials that require different speed settings, either low or high. Combined with the convenient tool design, this multitool is the perfect partner for every job demanding precision and control. Restoring delicate parts on antique furniture, on detailed woodworking, polishing chrome on low speed, or drilling miniature holes in several materials; this tool is an absolute must for the most demanding craftsman. The Dremel 400 Series Digital: maximum precision and control.

As a special offer Dremel has teamed up with Lego to create a promotion for kids and adults alike. The Lego Creator pack comes free on the packaging of a Dremel 400 (400-1/80)
